School of Ocean & Earth Science & Technology

Environmental Fate and Capture of Carbon Dioxide and Emerging Wastewater Pollutants

This seminar will be a two-part presentation of work done in Dr. Lastoskie's research group on carbon capture and storage, as well as some fate and transport modeling of endocrine disruptors (e.g., flame retardants, pharmaceuticals).

Christian M. Lastoskie

Associate Professor

Department of Civil & Environmental Engineering
and Department of Biomedical Engineering
University of Michigan

Friday, December 14, 2007

1:30 – 2:30 PM
