HNEI Fall 2007 SEMINAR SERIES SCHEDULE

Sep. 11	Steve Masutani, <i>HNEI</i>	The U.S. Methane Hydrate R&D Program
Sep. 18	Matthieu Dubarry, <i>HNEI</i>	From Testing to Simulation of Commercial Lithium Ion Batteries
Sep. 25	Michael Antal, <i>HNEI</i>	The Biocarbon Fuel Cell III
Oct. 2	Plamen Atanasov, <i>U. of New Mexico</i>	Future Prospects for Fuel Cell Catalysts
Oct. 9	Terry Surles, <i>HNEI</i>	Scenarios to Reduce Fossil Fuel Use in Hawaii
Oct. 16	Scott Turn, <i>HNEI</i>	Potential for Ethanol Production in Hawaii
Oct. 23	Brandon Yoza, <i>HNEI</i>	Microbiology and Methane Hydrates
Oct. 30	Suzanne Dorn, <i>HNEI</i>	Techniques to Evaluate Membrane-Electrode Assembly Performance in PEM Fuel Cells
Nov. 6	Guido Bender, <i>HNEI</i>	PEM Fuel Cell R&D at HNEI
Nov. 13	Charles Wyman, <i>University of California, Riverside</i> Koji Sode, <i>Tokyo University of Agriculture & Technology</i>	Biofuels from Renewable Resources Start-up Biotechnology Companies at Japanese Universities
Nov. 20	Severine Busquet, <i>HNEI</i>	Hydrogen Power Park at Kahua Ranch: Description and first results
Nov. 27	Vojtech Svoboda, <i>HNEI</i>	Standardization of Enzyme Fuel Cell Testin
Dec. 4	Daniel Scott, <i>HNEI</i>	Emergency Power from Urine
Dec. 11	Bruce Logan, <i>Pennsylvania State University</i>	Microbial Fuel Cells

Seminars will be held in POST 723, 3:15-4:15 p.m. unless otherwise noted. Go to HNEI web site (<http://www.hnei.hawaii.edu>) for latest schedule and presentation abstract.
