## HNEI researcher leads \$1 million sustainability research project on water, energy, and soil sustainability

[1]Michael J. Cooney, Associate Researcher at HNEI, is leader for a cross campus collaborative team that won the recent \$1 million University-wide Sustainability competition with a project aimed at developing and placing water, energy, and soil sustainability technologies in local industry. This will be a two-year effort involving faculty from HNEI, CTHAR, Shidler College of Business, Oceanography, and local companies such as Pacific Biodiesel and RealGreen Power. Read more about it in the Biofuels project news item [2] or contact Michael Cooney [3] for more information.
